

on Epigenetics in Lymphocyte Biology and Disease

September 13-14, 2012 - Barcelona, Spain

Invitation to Attend

You are cordially invited to attend the IDIBELL Cancer Conference (ICC) on Epigenetics in Lymphocyte Biology and Disease. The ICC will be held in Barcelona, at the *Ateneu Barcelonès*, on the 13th-14th of September 2012.

The goal of this meeting highlights progress in understanding epigenetic mechanisms underlying lymphocyte differentiation and function, reprogramming and malfunction in cancer and immune related disorders from a multidisciplinary point of view, from the molecular to the pathological level, and to create an exceptional framework for scientific discussion.

Applicants are encouraged to submit poster presentations. A limited number of these abstracts will be selected for oral presentation. More information can be found at the conference website:
<http://www.icclymphocyte2012.org>

All meeting questions should be directed to the technical secretariat: Aloha Congress. Nuria Portabella:
